Simple, Quick & Compliant Flow-switch Testing

100% Water Saving

Fits around existing flow-switch

#### **Overview**

Zonecheck EconAqua is a remote flow-switch testing device that fits around an existing flow-switch on EconAqua systems (low pressure water mist). It works by using a closed loop system that re-circulates water to simulate sprinkler head operation and tests the flow-switch without discharging water.

## **Specification**

#### **Zonecheck Econ Aqua**

#### **Pumps**

Operating Voltage	1~230v 50Hz
Imax	0.66 A
Max Power Rating	75 W
IP Rating	IPX4D

#### **Key-switch**

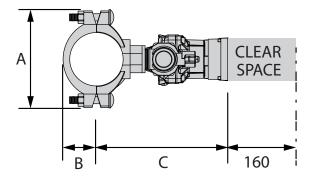

Voltage	220v 50 Hz		
Internal Consumption	7.5 W Max		
Amperage	0.88 A		
Order No	ZCKYSE		
LED Indication	icationPump Running		
	Flow-switch Activated		
	Valve Fault (optional)		
Max Group Size	25 Key-switches		
Max Group Cable Length	300 m		

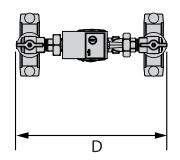

## **Ordering information**
